

1 RESERVOIR STREET  
CAMBRIDGE

Dear Dr. Kennedy,

Last Friday I wrote Dr. Goodale asking him what he thought of our committee making a report this year considering the unfortunate trend of affairs in financial circles. I beg to inclose his reply with the request that you return it to me with your reply.

I am free to say that I don't like the looks of "things" even now, I feel more apprehensive

than I did in '93 and cannot  
yet see the end or even the  
material bettering of affairs  
in the near future, Please  
do not consider that I wish  
to influence you in any way  
in your opinion and of course  
I did not <sup>say</sup> all this to Dr. G.  
as I know he has enough to  
think about in the department,  
With very best regards,

Sincerely yours,

Nathl. C. Nash,

Sunday,

Readville, Mass.

Jan 5, 1908.

Dear Mr. Nash:

It is certainly a long time since I received your letter, but I hoped to see you daily, ~~then~~ I was taken with the Grip and have been kept at home more than a week, and indeed this is the first ~~year~~ letter I have put the '08 on, so you may see I have been kept pretty quiet.

Even if financial affairs were not as they are, I think our reception by

I return you Dr Goodale's  
note as you request  
and I agree with you <sup>both</sup>  
~~him~~ that the present  
is rather an inopportune  
time to explain anew  
the needs of the department  
and unless we have  
something to add,  
it seems hardly  
necessary to rehearse  
the old story but  
I would be glad to  
have a talk with  
you some day, and  
as I hope to go in-  
town the coming week  
will try & call on  
you some day about  
noon  
with my kind regards  
Sincerely yrs  
Geo G K.

P. S.  
meanwhile I would be  
glad to have your  
Boston address which  
I have mislaid.

OFFICE OF  
NATHANIEL C. NASH.

54 MASON BUILDING,

BOSTON, June 18<sup>th</sup> 1906.

Dr. G. G. Kennedy,

Readville, Mass.

Dear Dr. Kennedy,

Enclosed please find copy of our report to be submitted to the Overseers. This report has been drawn up under the supervision of Prof. Jeffrey, has been submitted to the other members of the Department and, I understand, meets with their approval. It sets forth the pressing needs. Kindly drop me a line and let me know how it strikes you.

With sincere regards,

Yours truly,

Nathl. C. Nash,

To the Board of Overseers of Harvard College

Gentlemen

The Committee on Instruction in Botany, having visited the Department of Botany and conferred with its members, beg to submit the following report, which in their opinion sets forth the needs of this important branch of instruction. They feel that these needs must receive attention at a very early day.

*From the best information available*

The Botanical Laboratories of Harvard University compare most unfavorably in their equipment with those of other universities, in which botanical instruction has been more recently organized. While it is not necessary or even desirable, that Harvard College should endeavour to vie with New York or Chicago in the architectural magnificence of their laboratory accommodations, it appears essential that something should be done at once for the improvement of our laboratories, if we are to hold our own in the competition with other universities for the better class of students.

Unlike the Departments of Zoology, Geology, Mineralogy, Chemistry, Physics, etc., the Botanical Department is without a modern system of lighting. This is the more unfortunate because of the unusually low studded rooms, <sup>of</sup> which constitute some of the larger Botanical laboratories. In these rooms on account of the low ceilings and the resulting smaller windows, fully two thirds of the floor space is of little or no use for teaching purposes. This feature too results in a dinginess of aspect, which has become a matter of comment, since some of the Botanical laboratories present a marked and unpleasing contrast to the higher studded and electrically

lighted rooms of other scientific Departments. In addition to modern and adequate provision for lighting, there is also urgent need for ventilation in the overcrowded rooms used for elementary instruction on the second and topmost floors. Appropriate provision for the ventilation and lighting of these laboratories would moreover result in an economy of space, which would render possible accommodation for graduate students in the Phanerogamic Laboratories, at the present time wholly lacking. It is neither to the credit nor the interest of the College, that there should continue to be no working places for graduate students in the laboratories devoted to the study of the higher plants. It is not surprising that under existing conditions, our graduate students should have grown fewer and fewer compared with those of other large universities. Your Committee as well as members of the Department of Botany have called attention more than once, to these urgent needs, which should be provided for, if this Department, which in the past has been one of the most efficient and distinguished Departments of the University, is to escape complete eclipse.

Your Committee, from the estimate of the Inspector of Buildings and Grounds, have learned that the sum of \$5000 expended on the rooms occupied by the Department of Botany in the University Museum, in renovations, improvements and additions to outfit, would suffice as far as material equipment is concerned for the present. Such an expenditure is not large compared with the great importance of the results, which would be achieved by this disbursement, in the improvement of the mental and material condition of the Department of Botany. In the opinion of your Committee, in view

of pressing needs, it cannot be long delayed, if the Botanical Department is to escape falling into a condition of decay unworthy of its past reputation.

Finally your Committee strongly urges the provision of a laboratory servant for the Botanical Department, such as has been employed for many years on the Zoölogical side. This action would relieve individual members of the Department of the necessity of either providing for such attendance out of their own stipends, as they ordinarily do at present, or expending valuable time and energy on menial and mechanical offices, from which officers of instruction in other universities are ordinarily relieved.

St. Louis, April 30 - 1909.

My dear Dr. Kennedy:-

I need four volunteers each to offer one or more masses in the July *Biologist*. Can you see your way clear to offer one or more masses - common or rare. It usually requires about 15 mounts to satisfy the demand.

Very Resp'y,

W. L. Nelson

4507 E. Duellin Ave.

### ANNUAL MEETING, APRIL 28 AND 29, 1916

The annual meeting of the Federation will be held on Friday and Saturday, April 28 and 29, at the Boston Children's Museum at Jamaica Pond. This museum, which is directed by Miss Griffin for a long time treasurer of the Federation, will be open to visitors and its methods shown and explained by the persons in charge. There will be the usual exhibition, illustrating the work of the various societies, to which members generally are invited to contribute. Packages may be sent before the meeting to the Children's Museum, Jamaica Plain, Mass. The exhibition will be open Friday afternoon, April 28, and all day Saturday. Friday evening, 7 to 10, there will be an informal meeting for showing exhibits and for short reports and addresses. Members who cannot attend on Saturday are specially invited to this meeting.

To reach the Children's Museum from the North or South R.R. Station, take elevated train to Dudley Street, change to Jamaica Plain car to Moraine Street and walk west five minutes into the park. Time from North Station 45 minutes. From Park Street subway, take South Huntington Avenue car to Perkins Street and walk west five minutes.

Saturday at 10 A. M., the annual meeting will be held for reports from the various societies, for the election of officers and other business. Societies not represented at the meeting are requested to send a short account of their work during the past year. A meeting of the council will be held immediately after the general session to examine the accounts, to decide on the admission of new members and to arrange for future meetings.

As there is no restaurant near, arrangements will be made for lunch at the museum from 1 to 2. In the afternoon the Brookline Bird Club will have a walk in the park near the museum and as far as the Arboretum and all persons attending the meeting are invited to join them.

The report of the annual meeting will be issued as soon as possible and will contain notices of the summer programs of societies.

J. H. Emerton, Secretary  
194 Clarendon Street, Boston

March 25, 1916

## NEW ENGLAND BOTANICAL CLUB

---

*There will be a regular meeting of the Club at the rooms of the Twentieth Century Club, No. 3 Joy Street, Boston, on Friday, April 7, 1916, at 7.45 o'clock P. M.*

MR. KNOWLTON—The Saxifragaceæ of the Gray's Manual  
Region (fully illustrated by specimens)

---

There will be a Conference at the Club Herbarium, Cambridge, on Friday evening, April 14, at 7.45 o'clock, when the genus *Antennaria* will be considered. Members are invited to bring their doubtful specimens

*Members having candidates to propose for membership in the Club, should send nominations in due form at once to the Corresponding Secretary, if they desire action on the part of the Council before next fall*

*Members are requested to send early notice of any change of address*

EDWARD L. RAND  
Corresponding Secretary

53 State Street, Boston, Mass.

VIOLA INNOMINATA

As I was walking through a field,-  
The habitat was wet,-  
I chanced to see a winsome thing,  
The modest violet.

She looked familiar, once I knew  
Her given name,- I think.  
But now we know these plants seem named  
By influence of drink.

Her color was what poets call,  
"A bit of Heaven's own blue."-  
But this is very, very wrong,  
As Mathews shows to you.

"Dear flower," I said, "I love you well,  
Yourself pray introduce."  
She bowed her head, and murmured low,  
"It would not be much use.

A man who lives up in Vermont,  
'Freakish' calls me, and 'cross',  
And says no one respectable  
Can guess what is my source.

A nameless nothing sure am I;  
Forget your love for me  
Until I find out who I am  
In plant society."

I could not comfort her, alas,  
For specialistic ways  
Must hurt the feelings of the plants  
In these intensive days.

I had to leave her to her grief,  
For versed not am I  
In dead names that are brought to life,  
And living names that die.

No comfort lies in synonyms,-  
But how nice it would be  
If she could have the novum nom  
Of V. Brainerdii.

## New England Historic Genealogical Society

AT a stated meeting of the Society in Pilgrim Hall, 14  
Beacon Street, Wednesday, April 3, 1912, at 2.30  
P. M.,

FREDERICK JACKSON TURNER,

PH. D., LL. D., LITT. D.,

PROFESSOR OF HISTORY, HARVARD UNIVERSITY,

will speak on

THE NEW ENGLAND FRONTIER ABOUT 1700.

Members may invite friends to attend and to remain at the  
close of the formal part of the exercises, when coffee will be  
served.

Notice is given that the following matter will be brought up  
for action :—

To see if the Society will authorize the President and the Treasurer to borrow  
on behalf of the Society a sum not exceeding \$85,000, and to give the note of the  
Society therefor, payable in not more than ten (10) years, with interest thereon at  
a rate not exceeding 5% per annum, and to execute, acknowledge and deliver in  
the name and behalf of the Society a power-of-sale mortgage with such special  
provisions, if any, as they may deem expedient, of the real estate of the Society  
now numbered 9 on Ashburton Place, and 3, 5, and 7 Allston Place in said  
Boston.

JOHN ALBREE,

*Recording Secretary.*

BOSTON, March 27, 1912.

"In the course of the seventeenth century the frontier was advanced up the Atlantic river courses, just beyond the 'fall line,' and the tidewater regions became the settled area."

"At the Atlantic frontier one can study the germs of processes repeated at each successive frontier. The first frontier had to meet its Indian question, its question of the disposition of the public domain, of the means of intercourse with older settlements, of the extension of political organization, of religious and educational activity."

About 1700 certain towns in Massachusetts, among them being Haverhill, Groton, Lancaster and Deerfield, were frontier towns and as such they stood in a peculiar relation to the settlements at the Bay. What the significance of the frontier was, and what were the workings of human nature under the conditions there found, will be discussed by Professor Turner in speaking of "The New England Frontier about 1700."

THE corner-stone of the new building was laid by President Baxter, on Monday, March 18th, which was the sixty-seventh anniversary of the incorporation of the Society, the Council and about sixty members of the Society being present at the exercises. As the occasion was a formal meeting of the Council, the account of the event forms a part of its records. The exercises consisted of a short address by the President and a prayer by Rev. Anson Titus, who also said a word of benediction when the stone was in place.

A heavy copper box was provided for the material which it was desired should be preserved under the stone. It has been found that notwithstanding apparently complete precautions, papers frequently are seriously affected by moisture that may come from condensation on the inside of the box. As additional security therefore, glass jars with ground glass stoppers were used to hold the papers in this box. Among the contents are records of the last annual meeting, the by-laws, papers relating to the new building, and as being probably of especial interest at some later time, examples of the leaflets of all kinds that have been issued at intervals in the Society's work. An autograph list of those present at the meeting was included, together with three medals, one a replica of the gold one given to General Washington in commemoration of the Evacuation of Boston, March 17, 1776.

One touch of sentiment was furnished through the request of the quiet wielder of brush and broom in the Library, who, though intent on her unimaginative duties, has caught the spirit of the new building. She asked if she might not also place something in the box, and accordingly her coin will be found when, if ever, the box is opened.

53 Mount Vernon St.,  
Boston.

Dear Doctor:

I am much indebted  
to you for sending me the mono-  
graph on the State of Willoughby,  
Vermont. The excellent photo-  
gravures give a good idea of the  
environment of the place, while  
especial value is added by the very  
distinct maps of the region.

I appreciate that much work is in-  
volved in the preparation of your paper.

Yours cordially,

Arthur H. Nichols.

Mr Kennedy

Dear Sir

I inclose the four views postals  
They do better work with a  
98 ft camera than I can  
with mine, but it was too  
near high twelve when that  
picture was taken, No 2 was  
taken an hour or two later  
from the same spot, No 3  
was taken the same day  
about 4 Pm, which a house  
fly spoiled it was carelessly  
left film side up when  
he came along and had the  
goods for immediate delivery  
last Wednesday was a beautiful  
day The foliage never was

2

More gorgeous - Since there  
in the wind & storms it has  
faded rapidly - I have not yet  
sent the pictures to the  
other gentlemen, will do that  
later, hoping you are well  
and happy I am sincerely  
Yours L F Noble

Fairfield Farm  
Franconia N.H.

Dec 29 - 1907

My dear Mr Kennedy

I didn't - get my  
Christmas bundle of Mail untill  
yesterday, for it is quite a long journey  
with a smooth horse over the rough  
frozen ground - we have had no  
sluysing yet - this winter. I think  
that you had me pretty well sized  
up when you sent that book of pictures  
and I haven't done much of anything  
since but look at them they will last  
me all winter and longer. I thank  
you, I thank you. Perhaps if I had  
inherited wealth when young I should  
have been by choice what they used  
to call a Globe trotter. When a boy  
I read about the travels of Bayard  
Taylor with great pleasure - they came  
in the New York Tribune and Horace  
Greely was law and gospel - but when  
I was a boy such a book of photos or  
pictures of any kind did not exist -  
on this earth and the Daguerre!  
Types which men began to make were

rightfull to look at- worse than the  
Nightmare under another cover I  
sent a picture of the Francoues from  
the Sugar Hill- The Mrs I have  
always been familiar with. If it makes  
too much letter it will burn readily  
in the furnace- The Burpee's at the  
Mr- LaFayette house have been sued  
out- and sold out by Mrs Blosson  
and handled roughly so it appears  
They have left town and I don't know  
where they have gone- I learned quite  
early in life not to get in debt- to a  
man- when I needed money borrow  
from a friend- It seems they didn't  
have much or they couldn't have been  
handled so roughly I hope somebody  
will move in there soon before  
they are burned down by some of  
our good people in this house burning  
town- if they are they will never  
be rebuilt- For two months very nice  
weather- I hope to see you again  
another summer, and hear that you  
are quite well and happy soon  
with good wishes all good wishes

Y<sup>r</sup> Noble

or it would have been very hard  
I don't think I ever passed a winter until  
the middle of March before when I never  
saw a bird but a hen in all winter long  
It has been so cold the old boys and the shades  
must come to the house for some thing but  
it must be warmer soon - I think you  
give a full heart for the two elegant books  
The letters I haven't taken are heard yet. But  
it is wonderful, and when I have read  
the other book you will hear from that again  
Those old boyhood days with their hopes  
and fears - no I don't want them back ever  
again - Some happy days - but those were  
unhappy days for most all of us - I'm glad  
now I didn't get in the army for perhaps I would  
have killed some one and <sup>been</sup> killed and never  
got on - with good wishes  
L & love

Fairfield Farm  
Francisco 1111  
March 15-1916

My dear Dr Kennedy  
Your welcome letter and  
The two books came to me last week  
and one of the books brought back  
a host of events almost forgotten  
as you knew it - well It was  
my fortune to go to the high school  
at the village (Littleton) in the fall  
of the Fremont campaign, that is  
sixty years ago come full - and those  
days come back as clear as yesterday  
Our school master was an ardent-  
republican and a fluent speaker and  
afterward a Col in some N.H. regt  
he died of disease before the war ended  
It seems to me now that almost  
that entire school was republican

and now I can remember only a very few that I know is alive - one girl threatened to sit beside me and ~~was~~ see Robinson and sing in the campaign club - and "the chorus" to one song was "and our" quite is ~~for~~ as former - we know the way I think if I could see her now she would call me "Faythe" in two minutes or less - The boy who sat the other side went and was ~~in~~ say Or in the city of N.Y. and me I stand on the farm in the old house with the old folks and the debts, I could get only enough to pay the interest and eat. Never amounted to "Hundred Bucks" But after all I do it again - feel better in the long night than if I had ~~deserted~~ them And only think of it - One great North West that is <sup>now</sup> Germany with almost fabulous wealth Grain fruit - cattle and gold and millions of men; at that time was almost unknown <sup>with that campaigner</sup> I bought ~~him~~ to explorations and have it - never more when looking at over I can hardly look - anything he tells of Egypt rivers and mountains, and the things of the world that we know now we were learned almost all since then, and sometimes it seems that we despise their prayers even now are much more pathetic than ever before

It is cold this winter to day at noon it is only 12 above and the air is full of frost - a few days ago we had 18 or 20 inches of snow at one time we have seen the mountains ~~are~~ by only once in while snow or snow cap clench, or frost - but the wind has been unusually quiet -

the flower close over them <sup>or her</sup> close and  
tight - and no air descend there during  
the winter - got to stay somewhere and  
why not there - I am much as usual  
so are the nephews Polly has a job in Mrs  
Cobb's private school in Cambridge and the  
Gry House is at Goshen NH at school I shall  
miss him this winter - Home is Mr Vaynor I hope  
that he as well as yourself is or are both well  
and happy and during the many pleasant  
days we have had have had many pleasant little  
outings. With best wishes please remember  
me to Mr & sincerely & affectionately

Francouca NH  
October 11-1916

My dear Dr Kennedy

I saw in a list  
of passengers on the Stepan  
wrecked by the Germans the other  
day G Gregory Kennedy and  
from the similarity of names  
I thought it might be your son  
and I wanted to know if it was!  
so I write. It seems to me  
sometimes that this world is half  
itself - The prayers of the righteous  
are of no avail - and the  
Christia that always boasts of his  
redemption and goodness always  
collects money to spread it -

The forest next-<sup>to</sup> supplies are the plant-  
Now if this int-<sup>er</sup>all all must admit-  
that the Germans are capable *clerics*  
and on the job all night-  
and now the question is what will  
prevent their bomb-barrage any one of our  
cities from moving to Alaska?  
What shall we do? What will we do?  
Can down and take it-~~like~~ *whispered* dog?

Yesterday it cleared after a cold  
rain and the top of the mountains was  
white with frost-ice and snow down to  
the ~~low~~ *valley* below was the forest  
with its autumn leaves, this year they  
are brilliant- with color, the reds were  
instead of the gold I wish you could  
see them- The Fringed Gentian is not  
in plenty as usual and I was down trying  
to fertilize some with a feather never having

seen any kind of an insect in them  
but I found one open flower with something  
that filled the bowl of the flower full- all  
pink- I tickled it up and a big tangle  
be after making a hard struggle buckled  
it- and flew away- I wonder if they are  
one's only ones that fly like those flowers  
and none of it returned to stop and *live*

The Pilot Editorial Rooms.

June 10. 1881.

Dear Sir, I have received yr.  
check for \$25.00; and I  
beg you will convey to Mrs.  
Aitken my thanks & those  
of the Directors of the S.P.C.K.A.  
I wish to write to Mrs. Aitken  
& send her some books;  
and if <sup>she</sup> is still in San Remo  
I would save time to send  
directly rather than thro'  
Boeing Bros. May I

trouble you to let me know  
the better way.

I am very truly yours

Dr. Geo. G. Kennedy } John Boylston

W. B. Union St.  
Oct. 29 - 1903 Springfield

Dr. Geo. G. Kennedy.

Dear Sir,

I suppose you  
are back from Europe by  
this time & so I write to  
ask if I shall send you a  
few more New Zealand  
mosses. A few days ago  
I found a long-forgotten  
bundle of twelve specimens.  
eleven of them named

mosses, hepaticae and one lichen

by Prof. J. E. Eaton, and  
if you would like them  
I should be glad to give  
them to you.

I hope you had a pleas-  
ant time abroad, and  
picked up on the Scotch  
and English moors and  
hills the mosses that you  
anticipated finding -

Yours very truly

Maria L. Owen.

So I beg you not to reply to  
this note. The package will  
reach you, for mail matter  
doesn't get lost in this climate  
any more than it did in  
Paul Hamilton's time, and  
that you are extremely obliged  
and all that, cela va sans  
dire.

Yours very truly  
Maria L. Owen

Springfield, Nov. 2. 1883.

Dear Dr. Kennedy,

I am glad to  
put these cryptogams into  
your safe keeping and hope  
the time will come before  
long when you can study  
them yourself.

Mr. Craig sent me these  
specimens in 1881 and I  
passed them over to Professor  
Eaton for names, keeping  
a numbered duplicate for

of each one. When I saw  
you the other eve. I forgot  
them as I kept them in a  
different place.

I should have enjoyed  
going to Hurso, and seeing  
the home of that wonderful  
self-taught naturalist whose  
name I forget, but I never  
is the bound of my northern  
travels in Scotland. In the beauti-  
ful cemetery with the Gaelic  
name which means "The hill  
of the Fairies" I saw white

heathers, a fine plant growing  
on a grave. It was not an  
*Abrus* or *Calluna* or *E. cinerea*  
or *E. tetralix*, the common Scotch  
heathers, and I thought it might  
be the white species that  
grows at Land's End, farther  
out in Cornwall than I have  
ever seen.

I did not know before  
you told me that you were  
having trouble with your  
eyes; I don't want to add  
the least task to them,

Springfield Oct. 15. 1904

Dear Dr. Kennedy,

book form into which you have  
put them; if my climbing days were  
not over the list and your com-  
ments would tempt me up to  
Willoughby.

I must send you a Man-  
tles Catalogue, hoping that  
you will make a collecting trip  
to the island some time, — you

would be sure to find something  
new. About eight additions to the  
list have been reported since  
it was first published, and yet  
Mr. Davis who went to Kentucky  
year after year never exhausted  
the little thicket directly opposite  
the house that he occupied.

Your friend Mr. Floyd can  
tell you what a rich field it is  
for botanists. "Oh, why, why" says  
he "did I go to such a fascinat-  
ing spot? It will take far more  
time than I have at my disposal  
to study and mount in the coming

winter my specimens from there"  
— on words to that effect.

With many thanks for  
your remembrance of me  
Yours very truly  
Maria L. Owen.

work and in doing <sup>to</sup> so well.

I was rejoiced when Hall's voice over the telephone. The other night and to know that they were safe at home. They must have had a fine time. How those little ladies are. Teaching the big nations to keep them so quiet well when in the field. I should think these nations would be ashamed to neglect the part of war again. Please give my love to Mrs. Kennedy. I love always sincerely Anne E. Page

Danvers, Oct. 15, 1914.

Dear Dr. Kennedy:-

Your "Lore of Mills" ought to be gratefully received. It is a valuable addition to botanical lore; I am sure, with its 2000 plants, or more, and its lovely pictures.

My heart swells with pride when I remember that you told me, once; that it was re-

love of botany. You my old friend,  
Mr. Russell, who it seems, knew something  
long ago of Willoughby would have en-  
joyed this best. Of course all the  
mosses go over my head, entirely, but  
they impress ~~me~~ great admiration  
upon my mind. But the thing  
I most enjoy, as the friend of the  
author, is thinking what a good time  
he must have had in doing the

responsible for your taking  
your herbarium out of  
the office in Foxbury  
and bringing it to Mil-  
ton.

I was shocked to see such  
a fine herbarium in ob-  
scurety. It was the sum-  
mer that I was making  
a collection of ferns for  
Mrs. Richards and Miss Cra-  
way and in the kindness  
of your heart you helped  
me while I was visiting  
Mrs. K. and it made  
up your slumbering

some stress & anxiety at times  
Give my love to William  
Miss Inghall.

As usual as always

Anne E. Page

Garver July 2 1912

Dear Dr. K —  
I am sending  
in this mail a  
plant that was  
gathered in a near  
Springfield Mass  
in a field, I think  
It was given to friend  
of mine who brought

Chare just said in a word of word  
in the summer. My nieces from  
the West have been with me and  
now I have a little great great  
niece and nephew whom you have  
seen here. They are likely to stay  
through July as their younger  
sister has scarlet fever. Enjoy  
them very much in spite of

if to me yesterday  
that I might tell  
in the name  
As if I knew anything  
these days. If you  
can tell me I shall  
be glad. It may have  
escaped from an old  
garden.  
I have had a delight-  
ful May and June  
barring the cold

so if Mary had her daughter the many relations  
to you. Dr. Bishop B. was a ~~Scottish~~ you know  
he had three wives I read. The first was a  
beauty the second was rich and the third pious.  
After Mary Burnett died Mr. Brown of the  
hill married again. He was always  
raising Mary and she said that was the  
reason she ~~was~~ not happy with his second wife  
she did not build a monument to Mary Burnett  
as he asked her to in his will; and, in fact, to make  
it up to her and carry out his other intention by calling  
the hill St. Burnett. I'm going to, a distinguished  
and historical name to town. I forgot to say that  
his journal was given by Dr. H. to an Italian  
friend who took it home and in his wanderings  
it came to England and a man from Stroud

Dunbar Dec 10. 1907

Dear R. Kennedy:-

Do you remember I  
sent you a pamphlet about  
Foley Hill. I can get another  
for it is out of print and so  
I am going to ask you to return  
it. But I want to tell you  
something before you do think-  
ing that you may like to look  
it over again before you send  
it. Have you heard of  
Alexander Hamilton's (not the  
great one) Journal, recently

and set things down. He came up  
the way and visited Mr. Brown when  
he was living in his house on the hill.  
He decided the house and even gave  
the name of some of the rooms and he says  
(this is the part that interests us) that  
Mr. Brown told him that he was going  
to call the hill Mt. Burnet in his father's  
wife. Mary Burnet who was a daughter  
of Gov. Burnet and granddaughter of  
Bishop Burnet. See in the life of the  
latter that his first wife was a Kennedy

printed by the Society in  
Boston who print limited ed-  
itions of books they think worth  
preserving. It was sent  
to the Essex Co. in Salem  
and the Danvers Hist. Soc.  
is very much interested in  
it because it relates to Folly  
Hill. As I understand it  
Mr. Hamilton or rather Dr.  
Hamilton came from Scot-  
land before the revolution  
and practised medicine  
in Baltimore. He seems to  
have had the journal habit

bought it in a shop in Trafalgar  
Sq. and being a member or  
knowing members of this society  
in Boston who print such  
things it has been printed  
for distribution in libraries &c  
I suppose there would be a  
copy in the Boston Museum  
My way I write you to a picnic  
of the Hist Society in Mt Parnet  
next summer whether Mary  
Quinn's mother was or was not a  
kin ally. In case you read thus  
far I thank you kindly for doing  
so and I send much love to  
Mrs. K.  
Sincerely Anne L. Page.

and the cause of a good deal  
of distress. But what is that to  
be done? I am sure that  
you will make haste to get out  
side of track and the whole thing  
do not pour forth mettle saying  
we should be content and thank-  
ful that we were born here and  
have sense enough to stop there  
a great deal of love to Mrs Kennedy  
would with thanks and sincerely  
and all good wishes from L. B. R. G.

London, Jan. 4, 1859.

Dear Dr. Kennedy: -  
It was a kind  
thought that sent  
me what I prize  
very much - a  
new year's wish  
from you. I shall  
expect to hear  
Matthew Arnold  
the first time

all that I want. I do  
and the tears left I should  
<sup>forget</sup> I lost three days out  
the week before in something  
entirely aside. (I'll tell you  
about that sometime) and a deep -  
-pore that that and the  
approach of senile dementia

I come to Milton.  
I think I never  
enjoyed Christmas  
so much as this  
one. It was more  
to me spiritually.  
On the natural  
plane I think  
I came near being  
killed with the  
effort to remember

Sunday Evening August 27 1905

OFFICE HOUR:

CALVIN GATES PAGE, M. D.

1.30 - 2.30

128 MARLBOROUGH ST.

My dear Doctor Kennedy:

Boston  
U.S.A.

Last Tuesday Marie and I made a comfortable journey to Boston. She was not much fatigued and has been gaining strength every day since. To avoid extra strain on her heart I carry her down stairs to dinner and <sup>after supper</sup> up again at bed time. She enjoys first being at home, but she has also been reading mending and seeing her friends. The nurse came in to town with us from Bryn Mawr and saw us comfortably settled in the drawing room on the Colonial Express. Marie is getting used to doing without the nurse but finds it convenient fix her hair back of her head instead of on top. By the time you get home she should be quite strong again. Carrie & George wait till the eclipse is over before coming to visit us for two weeks. So we expect them next Thursday eve.

Since I wrote you Luania has  
gained steadily. We were able  
to set the date for our return  
at least two weeks ahead,  
and abide by it. We feel  
very grateful to be safe at  
home again. We had Thunder  
showers this morning and cool  
east wind all day. We found  
the house in good order and  
a very warm welcome. Derby and  
Tim had not forgotten us.

We receive that you will  
have a glimpse of Sham, <sup>even</sup> tho  
a brief one. Marie sends  
much love to you all.  
We know you will not be  
sorry you went even if  
a cloud should hide the  
eclipse. We hope the day will  
be clear however and that  
you will enjoy all the  
homeward journey.

With kind regards to you all

Sincerely

Caroline May

G R E E T I N G

May your Christmas be Merry and Happy.  
May the New Year bring many blessings.  
When we look back at all the experience  
of the past year and find much for  
which we are thankful, can we not see  
the meaning of Christmas more clearly?  
A friendly Personality is close at  
hand to help us turn our ethics into  
experience; to guide us if we are not  
too conceited to be guided, and not us  
alone, but all those about us near or  
far. The birthday of the Christ Child  
is a symbol, easily understood, of the  
coming of this Personality close to  
the lives of men. Its coming and its  
abiding with us; if we will; is the  
greatest of our blessings. The spirit  
of love which it arouses compels us  
to send greetings as I do now to you.

In all sincerity

Salvin G. Page

Marie also sends greetings

apartment + servant + keep  
house. I hate travel. May  
your summer be a happy one  
+ far from such a catasrophe  
as befell me!

Cordially yours  
L. Palmer

Howard Mumford

April 15, 1903

Dear George:

Perhaps I had better  
set down the names of these  
hotels while the matter is fresh  
in mind.

The Rothay Inn, Bradeney.  
I was there last summer, +  
have been there half a dozen  
times before, always finding it  
good + the country around  
magnificent. It is the best  
center in the Lake Region  
for exploration.

Half a dozen years ago I found The Devonshire Arms near Bolton Abbey, in Derbyshire, delightful. Affleton sent me there, & it justified his praise.

The Cathedral Hotel at Salisbury is excellent, & the town & neighborhood most interesting.

One of the very best hotels I know anywhere is Cadogan's Hotel, Suffolk St., Pall Mall, London. It is a private family hotel, with few rooms, rather high priced, great quiet, & every

comfort of an old fashioned home. Though so central, adjoining Trafalgar Square & Chancery Court, it is most secluded, in a little court of its own, & exquisite too in chaletized in service & in food.

A similar house in Paris is Hotel Maillan, 59 Avenue Marceau, Champs Elysees - perfectly delightful, & moderate in charge.

I have fewer addresses because when remaining in a place I always put an

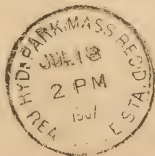

You are quite right, & I thank you for  
the correction -

~~and~~

Boxford  
July 21 1907.

Dear George:

I haven't any copy of  
Howell here. It is in Cambridge,  
a 17th Century copy, which I  
will look up when I am there  
this week. There is a pretty large  
variation among Johnsons.  
But I am delighted to be  
warned. Do send me any  
suspicious matters for find.  
I have already found a  
hundred or more, & hope  
to extirpate most of them

in this new edition. That I shall  
not put anything straight in  
so complex a book, I cannot  
believe. But before I go into  
my paper I should be glad  
to make Hubert's monument  
as spotless as possible.

I have always been sorry  
that the order of composition  
obliged me to print the  
Cambridge period - the driest  
& most artificial - before those  
wild times of the Devonian  
time. In my essays I have  
seldom noted that they

had better begin with the third  
volume, or at least with the  
Cretaceous section, in order to put  
the living man. This indeed  
is my one great contribution to  
the understanding of Hubert,  
that by the aid of the Lillians  
and I have for the first time  
been able to sort his periods.

You spoke of bringing ~~the~~ <sup>the</sup> ~~the~~  
Faxon to Roxford. So do whenever  
you incline. My woods will  
always be here, & I of them.

Sincerely yours,

S. A. Coleman

Chicago, Sept. 9. 1909.

Dr. G. G. Kennedy,

Readville, Mass.

Dear Sir:-

Wm. Palmer has applied to me for position of chauffeur, and houseman in my home, and states he was in your employ as second coachman for two years. Will you kindly give me your experience with this party, and advise if you consider him honest, trustworthy and reliable? I enclose addressed envelope for reply, which will be held strictly confidential.

With thanks in advance for your courtesy in the matter, I am,

Very truly yours,

DAVID C. B. WOLFE

3811 Prairie Avenue

Dear Sir

Wm Palmer (a very dark colored man) worked for me about two years <sup>as second man in house</sup> and I can speak well of him. My coachman says he never touched liquor and was well liked by all on the place. I know nothing abt his abilities as a chauffeur, but I consider him a good man, Yours truly  
G. G. K

Cher Monsieur,

Je vous remercie sincèrement de l'é-  
chantillon de Deligeria calcarea que vous  
avez très voulu m'envoyer, et de l'indication  
d'une nouvelle localité pour cette espèce rare.  
Je recevrai avec plaisir ainsi que vos rensei-  
gnements de cette nature, s'ils me parviennent des  
échantillons, que vous voudrez bien m'adresser  
pour l'Index.

Je me permet de vous envoyer, en retour,  
deux ouvrages qui ne viennent pas de  
Amérique: le Lithothedon duricollis Muls.,  
d'Algérie, et le Pachia vesperata, dont  
le nom spécifique indique suffisamment  
l'origine.

Très Sincèrement d'vous.

J. L. Paris

Dinar, 18/2-97.

218 SEAVER ST.  
ROXBURY

15 Dec - 1910 -

Dear Dr. Kennedy - The artist - Mr. Walter Gilman  
Page, painted some few years ago a good likeness of  
Dr. De Normandie, which is now hanging in the  
Unitarian Building, 25 Beacon St -

Mr. Page tells me that he is willing to dispose  
of the picture, and I am anxious to find twenty  
five people who will be willing to give twenty five  
dollars each, and then present it to the Probate Court  
School, to be hung in its hall.

Dr. De Normandie has been Chairman of the  
Trustees for more than 25 years and it seems a  
most fitting place where the picture placed. Where  
it can be seen by the coming students of this old  
School - Will you be willing to help?

Very truly

Dr. Geo. F. Kennedy  
Boston

H. Phillips Jan 3  
I wrote that  
I would be  
one of the 25.

ROXBURY

10 Jan - '11

Dear Dr. Kennedy.

I received your note  
just as I was leaving for New Virginia  
& now that I am back I desire to  
thank you for helping me out in the  
purchase of Dr. Dr. Worman's portrait.

I will advise you when the money  
is needed.

Let me send you my sincere  
sympathy in the loss which has come to  
your home. it certainly is hard to take  
up the daily duties when the days are  
so dark and life seems so lonely.

With kind regards

Truly yours H. Montipaul

ON INDIAN HEAD HILL

Dr. G. G. Kennedy,

Readville, Massachusetts.

My dear Doctor Kennedy:-

Mrs. Hill has given me the little box of English Walnuts which you so kindly sent from your place and I want to take this opportunity to thank you for your kindness.

I have already planted English Walnuts, pecans, butternuts and shell-barks on my place and it is most interesting to know that someone else has been able to cultivate them satisfactorily in this vicinity. I have seen no English walnut trees bearing but hope we shall have them here in the course of twenty to twenty-five years.

Mrs. Hill joins me in sending kind regards.

Very truly yours,

*Frank R. Hatch*

Dic. F. W. P. / M. G. A.

**Office of H. N. Patterson,**

BOTANICAL PRINTER,

OQUAWKA, ILL., March, 1886.

DEAR SIR:

If enough orders are received to pay for an edition, I will undertake the publication of a

**List of North American Plants,**

in large type and on good paper.

The enclosed sample will show the proposed size of type and page, and quality of paper.

The catalogue is designed especially for use as a herbarium list, and the genera and species will be printed in alphabetical order—the most convenient for ready reference. The list will be made as full as possible, and a blank below, equal to at least one-tenth the space occupied by species now known, will be left for the addition of new species.

It seems to me that at least one list, for the purpose of checking the plants in his own herbarium, will be needed by every botanist who has a collection.

Price, \$1.75 per copy. If enough copies are subscribed for in advance to warrant a reduction in the price, it will be made.

Whether you desire copies of the list or not, please return, soon, the enclosed postal card, so I will know that you have received this circular.

Yours,

H. N. PATTERSON.

## TO NORTH AMERICAN BOTANISTS.

Orders continue to come in for my Herbarium List of North American Plants, the first edition of which has been exhausted for some time. I have therefore decided, if enough subscriptions are received in advance to insure payment for the labor, to issue another edition of the list, corrected, and with some changes. The same type will be used, the genera and species will be placed in alphabetical order, both species and varieties will be numbered, and an index to the genera will be given. The list will be issued in two forms, as follows:

### HERBARIUM CHECK-LIST.

Designed specially for checking the specimens in one's own herbarium. Printed on heavy sized and calendared paper and bound in cloth. Price per copy.....\$1.50

### CHECK-LIST FOR MAILING.

Printed from the same forms on paper of the same quality but considerably lighter. Bound in paper covers. Price per copy.....75 cents.

Copies of either edition printed on one side of the paper only, if desired, for 25 cents extra.

I hope to receive a subscription from you for one or both editions.

### GENUS LABELS.

Sample sheet herewith of my Genus Labels. If not already provided with something of the kind, you will find them convenient for genus covers, plant-case doors, etc. A set consists of 3 labels for each genus and 6 to 15 extra labels for each of the large genera—in all over 5,000 labels, for about 1,670 North American genera. The labels are in sheets, like enclosed sample. Price per set, \$1.75. Labels cut apart, if desired, for 30 cents extra. If you need but a few, one-third of the set will be furnished for 60 cents.

### ORDER LABELS.

Sample enclosed; price 15 cents per set—one for each Order.

### Labels for Botanical Specimens

Printed to order. Will be glad to send samples and prices.

H. N. PATTERSON, Oquawka, Illinois.

Please return enclosed card soon, whether you order or not.

NOTHING BUT THE ADDRESS TO BE ON THIS SIDE.

5 November, 1904

My dear Dr. Kennedy, -

At the two meetings of the Botanical Club which have passed I have not found the prime opportunity which I have denied to thank you personally for your generous share in making our summer's trip to Europe a profitable and delightful one. Without your kindness many of our most important and most interesting trips would have been impossible. The only regret I can have is that you were not with us yourself to see what a fascinating country the whole penin-

sula is. The pictures give a good idea of the scenery here and the specimens of the flora, but there is, of course, a great deal in the way of adventure and interesting experience which cannot be reproduced in either of these ways.

We were especially interested in the Dryflastum River because of your connection with it, and it yielded us several good things. But we there met significant points which we visited (after I joined the party) were Carleton, Bonaventum River, and Rock and each of these would stand a great deal more work.

Again thanking you most heartily for your kindness, I remain,

Sincerely yours,

Arthur Stanley, Rose.

Geological Hall Albany N.Y. 5 O. '04

Dear Mr Kennedy

I have received a copy of your excellent "Flora of Willoughby" and thank you most heartily for it. As a small recognition of the favor I mail you a copy of my last report.

I have been collecting specimens of *Crataegi* quite extensively this season and last, Professor Sargent having made me a little crazy on the subject. I notice you have credited *C. media* Wang. to the Willoughby locality. This species is unknown to me and if you could spare me a specimen of it I

would gladly send you specimens  
of any two of our species you  
may desire for it.

Very truly Yours  
Chas<sup>l</sup> H. Peck

Dear Sir

I wish

to acknowledge with thanks the  
"Hera of Wellinghly" which I am  
very glad to have in separate form.

Very truly  
C. H. Perkins.

Told him my son had  
already ordered a  
supply from Jaffrey.

Lunenburg, Nt. Feb. 24, 1909,  
L. George S. Kennedy.  
Dear Sir,

My aunt Mrs. Jennie Leetham  
has written me that when she was  
at your house last summer, she  
told you about the maple syrup I  
make, and that you said you  
would like to get some of it this spring.

It is usually shipped in crates  
holding ten one gallon cans. The  
price is \$1.25 per gallon delivered  
at South Lunenburg station.

Will you please let me know if  
you would like to have me send you  
some of it.

Very Respectfully Yours,  
- Harris K. Phelps.

which have been lying  
two or more years unopened,  
you want to spend to put  
them out.

It is proposed to make an  
addition to the present building  
by, to convert portions of  
Stables for rooms, and I hope  
that you may feel that  
you can give assistance toward  
it. We are in favor of the  
Library, and will do all we can for it.

Feb. 12. '77

Dear Dr. Kennedy

I have the pleasing  
task of bring on a committee  
to raise funds for an addition  
to the Boston Medical Library.

I hate to beg, but somebody  
must do it, for the Library is  
sadly in need of room; all  
available space has been  
utilized, even the kitchen, yet  
there are numerous packages

Dr. Holmes, & we wish to make  
it as rapid as possible  
Dr. F. P. Frost, at Manchester  
N. H. is necessary to the Committee  
and the most grateful for any  
contribution.

Sincerely yours.

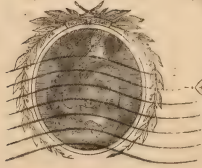

W. V. Brown

Payinosa Avenue,  
Boston, Nov. - Jan. 9, 1900.

Dear Sir,

Accept my thanks for the copy sent  
me of your Memoir of Mrs. Edwin Rippon,  
with whom I had pleasant & profitable  
formal association & exchange, some  
years ago. It's a fine one, now always excellent.

Very truly  
yours,  
Chas. C. Carter

Sunday Evening 4 Nov.

My dear Moore

My very good friend Mr Dorr with Mr Kennedy, both from Boston, in town only till the arrival of a steamer which they await, desire to visit the Lenox library and ask me how to obtain admittance —

I tell them I do not know, and that the best way to find out is to go up to the library tomorrow morning (if their steamer have not arrived) and send in this note to you, and that they

will then ascertain whether  
your rules can admit them.

If admission is impos-  
sible then this will only  
serve to introduce to you  
these gentlemen whom I  
most highly esteem -

Yours truly

W. C. Prine

G. A. Moore Esq

27 Feb'y 1910

My dear Dr Kennedy.

Nat tells me that tomorrow  
the 28<sup>th</sup> you and Mrs. Kennedy celebrate  
your forty fifth anniversary of your marriage.  
Olive and I send you our congratulations and  
best wishes for many more happy anniversaries.  
We think that to have so genuinely a happy  
one as this forty fifth will be, speaks of years  
of consistent happy living in the years before.  
We shall think it a real triumph if our  
forty fifth speaks of relations so filled  
with sweetness and gentle consideration  
as yours and Mrs. Kennedy's have always  
deemed to us.

Sincerely

Lewis I. Prouty

Boston, Feb. 7<sup>th</sup> 1901.

My dear Sir -

Going to my  
old office at the  
State House yester-  
day, I was handed  
a separate of your  
article on Edwin  
Faxon, with your  
compliments. It seems  
I have been mailed  
Jan. 10<sup>th</sup> last. You must  
have thought it very  
 queer and made of  
me not I have ac-  
knowledged it ere this  
even not mentioning  
it to you the other  
evening at the Club.

Well, you now understand  
the reason. Thank you  
very much and believe  
me

Very respy. yours,  
L. H. Audie

P.S. For the present I  
have my first class  
mail matter go to 60  
Pinchney St. and 2d.  
class to 48. Bylston St.  
Nothing to 37 State  
to ride any longer.

Mr B. Quaritch

Dear Sir The copy of  
Polus Bibliography  
of Shakespeare has  
come to hand, after  
a little delay from  
the address being  
written Meadville Mass.

I find on looking  
it over that it lacks  
the Title page, tho  
the Binder puts the  
title-page-year  
1863 on the back  
of the volume, but  
evidently did not  
retain the page  
itself which reads

Miscellaneous  
of the  
Philobiblon Society  
Vol VIII

1863

I regret having to  
return the volume  
but do not care to  
retain it for my  
library.

I send it by this  
mail registered  
to your address,  
very truly yours  
G. G. A.

*George G. Kennedy Esq*  
*Readville Mass*  
*Dear Sir*

Sept. 27th, 1913.

We enclose a proposal from Messrs. Burroughs & De Blois for the purchase of the entire property of the Quincy Market Real Estate Trust in the interest of the Quincy Market Cold Storage & Warehouse Company. As a stockholder in this Trust you have the option to receive the par value of your stock in either,-

- No. 1 First Mortgage 5% Bonds of the Quincy Market Cold Storage & Warehouse Company secured by all the Real Estate in question.
- No. 2 Preferred 6% Stock of the Quincy Market Cold Storage & Warehouse Company.
- No. 3 Cash.
- or any combination of the above.

If you approve of this sale kindly sign the enclosed paper marked " Preliminary Agreement " signifying the proportion of new securities desired.

We shall be glad to give any further information in regard to this exchange, which we heartily recommend as for the best interest of Quincy Market Real Estate Trust Stockholders.

It is important that 75% of the Real Estate Trust Stockholders signify their approval of this plan at once if they wish to secure the benefits offered, therefore we urge an early reply.

Many of the large stockholders have already signified their approval.

Very truly yours,

*Edgerly & Crocker*

PRELIMINARY AGREEMENT  
QUINCY MARKET REAL ESTATE TRUST.

Boston, September 24, 1913.

We, the undersigned owners of shares in a certain Real Estate Trust, established under Agreement and Declaration of Trust dated February 25, 1903 and recorded with Suffolk Registry of Deeds Lib. 2888 fol. 161, and known as the Quincy Market Real Estate Trust, hereby severally assent to the proposal, made by Burroughs & DeBlois of Boston, contained in their letter dated September 24, 1913 and addressed to the holders of shares in said Real Estate Trust, and severally agree, each for himself but not for the other, to exchange and deliver the number of shares in said Trust set against our respective signatures hereto, and receive in return the stated amount in either the new bonds or preferred stock which it is proposed will be issued by the Quincy Market Cold Storage & Warehouse Company, as described in said proposal above referred to, or to receive in return cash at the rate of the par value of said shares Quincy Market Real Estate Trust.

The terms of said proposed exchange for securities are par in either class of said new securities as noted, for par in shares of Quincy Market Real Estate Trust, and the exchange, if made, is to be made by Burroughs & DeBlois without charge to holders of shares making the exchange.

It is understood and agreed that holders of shares, in signing this Preliminary Agreement, shall have the right to alter the proportions of their allotment of new securities at any time before execution of formal agreement to deposit their shares in approval of Plan, and that the number of shares of Quincy Market Real Estate Trust set against their names is approximate only.

It is also understood and agreed that if Burroughs & DeBlois are unable to obtain consent of three-fourths in amount of the shareholders within thirty days from date, or if Burroughs & DeBlois are unable within said period of time to make a definite and binding acceptance of the terms of exchange herein agreed to by the holders of shares, then all obligations assumed by the parties who have affixed their signature hereto, shall cease and determine, and Burroughs & DeBlois shall be relieved from all liability to make the exchange described, but if Burroughs & DeBlois shall within said period of thirty days obtain assent to above terms of exchange by three-fourths in amount of the shareholders and make definite acceptance thereof, then the holders of shares who have signed this agreement, agree that they will execute formal agreements to deposit their shares and to receive in exchange the new securities above described in the proportions indicated.

IN WITNESS WHEREOF we have hereto subscribed our names.

Signature	Present Stock	New Securities	
	Q.M.R.E.Tr.	Bonds	Preferred Stock
	Par Value	Par Value	Par Value

Boston, September 24, 1913.

To holders of shares in  
The Quincy Market Real Estate Trust,

We hereby make a proposal to the holders of shares of Quincy Market Real Estate Trust to exchange their present stock in that Trust for bonds or preferred stock which it is proposed will be issued by the Quincy Market Cold Storage & Warehouse Company.

This exchange will be on the basis of par in present stock for par in the new securities and will be made without charge to present holders.

The securities which we herein offer to deliver in exchange for present real estate stock are hereinafter described. This proposal is offered subject to acceptance by not less than three fourths in value of the shareholders of the Real Estate Trust within thirty days from date and also subject to the approval and issuance by the Quincy Market Cold Storage & Warehouse Company of the proposed new issues of bonds and preferred stock.

If the proposed exchange of existing shares for the new securities is consummated we will purchase for par net payable in cash any shares of the Quincy Market Real Estate Trust belonging to shareholders not desirous of making the proposed exchange of securities.

The bonds above referred to which are to be delivered in exchange for present Quincy Market Real Estate Trust shares will be secured by a first and refunding mortgage on all of the real estate now owned by the Quincy Market Real Estate Trust. It will be the direct obligation of the Quincy Market Cold Storage & Warehouse Company to which the real estate and machinery now owned by the Quincy Market Real Estate Trust will be conveyed.

The amount of the mortgage will be closed at \$1,500,000 and the principal sum will be due in thirty years from date.

The interest on the bonds will be 5% per annum and there will be an annual sinking fund payment of \$15,000 to be applied in retirement of the bonds and the bonds will be callable in whole or in part for the sinking fund at 110 and interest. Principal and interest payable in gold.

The preferred stock above referred to which is to be delivered in exchange for present Quincy Market Real Estate Trust shares will comprise a portion of a total duly authorized and valid issue of preferred stock of the Quincy Market Cold Storage & Warehouse Co. limited in amount to \$1,500,000 of which the present issue shall not exceed \$1,000,000. The remainder of said issue being reserved by the Company for future issue for purpose of acquisition of additional property by the Company.

The Preferred stock will be preferred in liquidation up to par and preferred as to income up to 6% per annum and the dividends will be cumulative.

The preferred stock will have no voting power unless the Company shall be in default of payment of two semi-annual preferred dividends in which event the preferred stock shall have sole voting power until all arrears of dividends have been made up.

The preferred stock will be callable as a whole at 115 and no mortgage other than the foregoing described mortgage bond issue or other prior lien may be placed ahead of the preferred stock, nor shall the authorized amount of the issue be increased except with consent of 70% in amount of the preferred stock then outstanding.

It is believed that if this plan can be consummated the new securities offered in exchange for present holdings of Quincy Market Real Estate Trust will be more satisfactory to hold and command a better market than is the case with Quincy Market Real Estate Trust besides giving holders a better income return.

The adoption of the plan of consolidating the Quincy Market Real Estate Trust with the Quincy Market Cold Storage & Warehouse Company will result in greatly benefiting the Quincy Market Cold Storage & Warehouse Co. on the future success of which company the Real Estate Trust shareholders are largely dependent if the concerns should be kept separate.

If the present holders of shares in the Real Estate Trust exchange their shares for the proposed new securities they will participate in any benefit derived by the Quincy Market Cold Storage & Warehouse Company by reason of owning the prior securities of the consolidated concern.

We feel that our plan being advantageous to both sides can be carried out.

If the foregoing proposal meets with your approval we request that you so signify by signing the accompanying preliminary agreement and indicating thereon the amounts of the new securities or cash desired.

Very truly yours

Burroughs & DeBlois.

Oct. 4, 1913.

Edgerly & Crocker,  
111 Devonshire St.,  
Boston, Mass.

Gentlemen:

A printed prospectus dated September 24, 1913, and with the printed name of Burroughs & DeBlois at its termination, outlines a scheme for the sale of Quincy Market Real Estate Trust to the Quincy Market Cold Storage & Warehouse Company. This prospectus contains reference to the callable nature of the preferred stock. I understand from another printed prospectus, signed with similar printed signature of Burroughs & DeBlois and dated October 3, 1913, that the callable feature of the preferred stock has now been altered and that the September 24, 1913, "Preliminary Agreement" has now been changed by the deletion of the words in the last paragraph of the second page, "The preferred stock will be callable as a whole at 115 and".

On the understanding such change has been made in the September 24 prospectus and therefore in the September 24, Preliminary Agreement, I authorize you to notify Burroughs & DeBlois of my consent to the terms above stated by the documents of September 24 and the amending document of October 3. I have refrained from attempting to amend the printed Preliminary Agreement of September 24, which I have duly received this morning, for fear my amending of this Preliminary Agreement would be different from the amendment made by the other stockholders. I consider it simpler to notify you that I am ready to and do by this letter give you my signature in favor of the sale of the Trust to the Company, providing the 75% of the Trust owners similarly agree within thirty days of September 24, 1913.

I hold 28 shares Quincy Market Real Estate Trust stock whose aggregate par value is \$2800. If this projected scheme takes place I desire to take my portion of the new securities in the form of 28 shares of preferred stock at an aggregate par value of \$2800.

Yours truly,

Boston, October 6, 1913.

To Holders of Shares in  
The Quincy Market Real Estate Trust,

Referring to proposal contained in our letter of September 24, 1913, addressed to holders of shares in said Trust, we hereby amend same by striking out from the last paragraph on page 2 thereof, the words, "The Preferred Stock will be callable as a whole at 115 and"

The effect of this change is to eliminate all callable features from the preferred stock, which it is proposed to be issued by the Quincy Market Cold Storage & Warehouse Company as described in said letter, all other terms thereof being hereby confirmed.

Very truly yours

Burroughs & DeBlois.

Boston, October 6, 1913.

To Holders of Shares in  
The Quincy Market Real Estate Trust.

We beg to call your attention to enclosed letter in regard to the elimination of the callable feature in the Preferred Stock which it is proposed is to be issued by the Quincy Market Cold Storage & Warehouse Company, provided the terms of exchange offered in our letter, with above amendment which adds greatly to the value of the preferred stock, are accepted by three-fourths of the shareholders in this Trust within the time limited for acceptance, and said new issues of securities are duly approved by the stockholders of the Quincy Market Cold Storage & Warehouse Company.

As the time for obtaining the approval of the shareholders is short, if you have not already signified your acceptance by execution of the Preliminary Agreement, we trust same may receive your signature and be returned to us or Messrs. Edgerly & Crocker at your early convenience.

Over one-half the shares of the Trust have already assented and it is important that the remaining assents should be promptly sent in, so as not to endanger the accomplishment of the proposed exchange, which is of so advantageous a nature to the shareholders in this Trust that it cannot be allowed to lapse by reason of non-acceptance within the time limited for its definite closing.

Yours very truly

Burroughs & DeBlois.

# QUINCY MARKET REAL ESTATE TRUST

---

BOSTON, Oct. 6, 1913.

At the request of certain stockholders the Trustees make the following brief report as to the present condition of the Quincy Market Real Estate Trust, for consideration by the stockholders in connection with a proposition recently placed before them for a purchase or exchange of their shares.

---

A condensed estimate of the Balance Sheet at the close of the next fiscal year, May 2, 1914, is as follows:

Cost of Land .....	\$1,839,368.70	Capital Stock .....	\$2,000,000.00
Cost of Buildings .....	1,364,835.09	Mortgage debt .....	350,000.00
Cost of Machinery .....	250,000.00	Surplus .....	124,211.08
Investments .....	6,990.00		
Cash .....	13,017.29		
	<hr/>		<hr/>
	\$2,474,211.08		\$2,474,211.08

---

During the past 10 years the Lessee has expended considerable sums in additional buildings and machinery, the former of which will become the property of the trust at the expiration of the leases in 1933 and the latter will, by the terms of the leases, aid in ensuring full value to the Lessors of their interest of \$250,000 in the machinery.

An estimate of these expenditures has recently been made as follows:—

Buildings .....	\$200,000
Machinery .....	400,000

The estimated income for the current year indicates that there will be a surplus of about \$11,351.08.

This surplus will continue annually, gradually increasing through investment of each previous year's surplus, until 1923, when an increase of rental is provided for in the lease amounting to \$5000 per annum. After that date it was the original intention to increase the dividend to 5 per cent. per annum. The prosperous present condition of the trust, however, would seem to justify an increase before 1923, say within 5 years, unless the shareholders should decide otherwise.

In estimating the value of their shares, stockholders should consider that the trust is earning 5 per cent. though paying only 4 1-2 per cent.

They should also consider the increase in the value of the land in the past 10 years, equal in the opinion of the trustees to between 15 and 20 per cent., and the further increase in value of the property as a whole because it is a fixed site for a well established and very successful business, which it would be difficult, if not impossible, to duplicate today.

On the other hand it can not, in the opinion of the trustees, fairly be said that the buildings and machinery have increased in value. Increased cost of construction has, however, undoubtedly offset the depreciation.

The trustees believe that the proposition placed before the stockholders by Burroughs and DeBlois has great merit in the fact that it brings lessor interest and lessee interest together in the development of a business which ought properly to be a single interest, and thereby the difficulties in making improvements toward the expiration of the leases are avoided, but its terms do not appear to the trustees to have given sufficient consideration to the increased value of the property, the present earning power and the accumulated surplus of 5 per cent.

SINCLAIR KENNEDY,  
296 WARREN ST.,  
ROXBURY, - MASS.

10/8/13. Dear Father, - It seems to me that if this was written after the callable proviso in the preferred stock was annulled, the trustees are too optimistic about their res. For this preferred stock may now amount to any height the trust shares could have with the bracketed clause above stated considered and do it more quickly owing to present 6% in preferred vs 5% earnings in trust, even tho the preferred can never go higher or bring more than \$6 a year. I consider \$6 a year with no limit on selling price better than \$4.50 or \$5. a year with chance for greater dividend. This circular strikes me as tardy and anyway it would look better if a shareholder wrote the letter.  
yours S. K.

## QUINCY MARKET REAL ESTATE TRUST

BOSTON, 22nd October, 1913.

TO THE SHAREHOLDERS:

Owing to the recent circular of the Trustees implying that they can obtain \$110 per share for your stock, we have decided to suspend for thirty days the plan which we have heretofore submitted to you to enable the Trustees to accomplish this if possible. This despite the fact that we have received but one withdrawal of assent to our plan since the circulars of the Trustees.

If at the end of this time such an offer is not submitted by the Trustees, we propose to announce a definite proposition in accordance with the terms originally outlined.

BURROUGHS & DEBLOIS.  
EDGERLY & CROCKER.
